

## Country fact sheet France

### ESRA 2015 results

The ESRA project is a joint initiative of research institutes in 17 European countries aiming at collecting comparable national data on road users' opinions, attitudes and behaviour with respect to road traffic risks. A common questionnaire was developed in English (UK) and translated into 20 different country-language versions. The themes covered in the survey are: attitude towards unsafe traffic behaviour, behaviour of other road users, subjective safety and risk perception, involvement in road crashes, reported police checks and perceived likelihood of getting caught for traffic offences, self-declared (unsafe) behaviour in traffic, support for road safety policy measures and use of different modes of transportation.

Data collection took place simultaneously in all countries in June/July 2015. In total, ESRA gathered data from over 17,000 road users, including almost 11,000 frequent car drivers. An overview of the project and the results are available on [www.esranet.eu](http://www.esranet.eu). The following figures show a core set of variables in which France (green) is compared with the European ESRA mean (white).

#### General RS

How concerned are you about each of the following issues? (4-point scale, 1=very concerned to 4=not at all concerned) - % of respondents feeling (very) concerned (1-2)

#### Mode of transportation

What were your most frequent modes of transport during the last 12 months? - % of respondents choosing this mode as one of their top 3 transportation mode

## Self-reported behaviour

In the past 12 months, as a road user, how often did you...? (5-point scale, 1=never to 5=(almost) always) - % at least once (2-5)

### Speed

### DUI

### Distraction & Fatigue

### Seat belt and Child restraint systems<sup>1</sup>- % almost always (5)

### Cyclists & Motorcyclists

### Pedestrians

<sup>1</sup> The seatbelt related items describe safe behaviour – in contrast with the other items

## Acceptability – personal

How acceptable do you, personally, feel it is for a driver...? (5- point scale, 1=unacceptable to 5=acceptable) - % (rather) acceptable (4-5)

### Speed

### DUI

### Distraction & Fatigue

### Seat belt and Child restraint systems

## Acceptability- others

Where you live, how acceptable would most other people say it is for a driver...? (5-point scale, 1=unacceptable to 5=acceptable) - % (rather) acceptable (4-5)

## (Un)Safety feeling

How (un)safe do you feel when using the following transport modes...? (11-point scale, 0=very unsafe to 10 very safe) - mean of the 11-point scale

## Involvement in road crashes

In the past three months have you been involved in a road traffic accident as...? - % at least once

## Enforcement

On a typical journey, how likely is it that you (as a driver) will be checked by the police for...? (5-point scale, 1=very small chance to 5 (almost) always) - % (very) big chance

In the past 12 months, how many times have you been stopped by the police for a check? - % at least once

In the past 12 months, how many times were you checked by the police...? - % at least once

## Background Data

Basic data of France in relation to the European average<sup>2</sup>.

### Persons killed in road accidents by age (CARE database)

ages	year	FR		EU	
		absolute number	% of the age category	absolute number	% of the age category
0-14	2013	97	3.0	648	2.5
15-17	2013	102	3.1	628	2.4
18-24	2013	636	19.5	3807	14.8
25-49	2013	1213	37.1	9201	35.7
50-64	2013	532	16.3	5057	19.6
≥65	2013	688	21.1	6421	24.9
TOTAL	2013	3268	100.0	25762	100.0

European sum computed for 2014

### Persons killed in road accidents by transport mode (CARE database)

Mode of transportation	year	FR	EU
		absolute number	absolute number
car (including taxi)	2014	1664	12090
moped	2014	165	751
motor cycle	2014	649	3894
pedal cycle	2014	159	2174
pedestrian	2014	499	5816

European sum computed with the most recent available year by country (2009: BG; 2013: IE, LI, SI, SK; 2015: IS; others: 2014)

## Population

	year	FR	EU
population (M. inhab.)*	2013	63.7	500.9
density (inhab./km2)*	2013	117.1.	117.0

\* Source: INSEE for France

## Age Distribution

ages	year	FR	EU
0-14	2013	18.4	15.6
15-24	2013	11.9	11.5
25-49	2013	32.5	35.0
50-64	2013	19.4	19.7
65-79	2013	12.0	13.1
≥80	2013	5.7	5.1

% of the population

## Individuals' level of internet skills<sup>3</sup>

level	year	FR	EU
low	2013	NA	30
medium	2013	NA	35
high	2013	NA	12

% of the total number of individuals aged 16 to 74

*Low level: Individuals who have carried out 1 or 2 of the 6 internet-related items.*

*Medium level: Individuals who have carried out 3 or 4 of the 6 internet-related items.*

*High level: Individuals who have carried out 5 or 6 of the 6 internet-related items.*

<sup>2</sup> Statistics concern Metropolitan France. The European average is based on the following countries: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden and the United Kingdom.

<sup>3</sup> The six internet-related activities which were used to group the respondents were: (a) use of a search engine to find information; (b) send an e-mail with attached files; (c) post messages to chat rooms, newsgroups or any online discussion forum; (d) use the internet to make telephone calls; (e) use peer-to-peer file sharing for exchanging movies, music etc.; (f) create a web page.
