## Development of the number of users fatalities cumulated on a rolling 12 months

### Cumulative 12 months comparaison May.2018-Apr.2019 with Apr.2018-Mar.2019

Only fatalities among car users decrease this month of April 2019 compared to April 2018.  
 Fatalities among cyclists rise this month of April 2019 compared to April 2018.

### Cumulative 12 months comparaison May.2018-Apr.2019 with May.2017-Apr.2018, with 2010 and with 2013

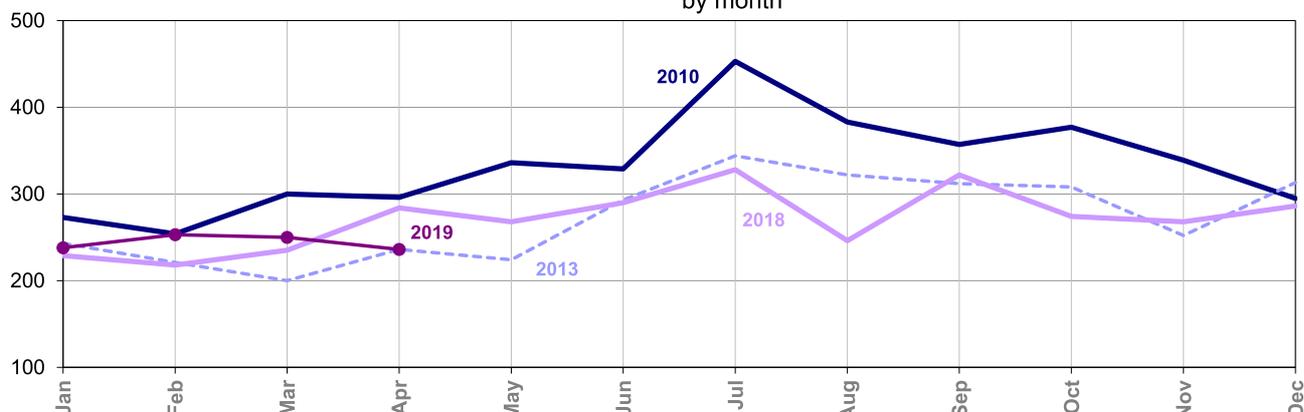

Compared to the situation a year ago, only car users fatalities decrease (-12%), evolving as -26% compared with the whole year 2010.  
 In contrast, pedestrian, moped riders and cyclists fatalities strongly rise (+4%, +5% and +12%), evolving as follows : +1%, -48% and +34% compared with the whole year 2010.

Fatalities among young people strongly decrease by -12%, and by -41% compared to the whole year 2010, representing 340 fewer young people killed and -23% compared to the whole year 2013, representing 145 fewer young people killed.  
 Fatalities among senior people age 65 and over, are stable compared to the situation one year ago, but are higher than for the whole years of 2010 and 2013, (+12% and +25%), representing 94 and 170 additional senior people age 65 and over killed in the last twelve months compared with 2010 and 2013.
