

As part of the implementation of the new information system, data on hospitalised injuries are not disseminated because they are incomplete

In January 2020 road traffic fatalities rise compared to January 2019 with 23 additional people killed.  
This rise mainly concerns young adults aged 18-24.

## Development of the number of users fatalities cumulated on a rolling 12 months

### Cumulative 12 months comparaison Feb.2019-Jan.2020 with Jan.2019-2019

Fatalities among pedestrians decrease this month of January 2020 compared to January 2019.

Fatalities among cyclomotorists, pedal cyclists and car users rise in January 2020 compared to January 2019. Fatalities among motorcyclists are stable in January 2020.

Fatalities among young adults rise in January 2020.

### Cumulative 12 months comparaison Feb.2019-Jan.2020 with Feb.2018-Jan.2019, with 2010 and with 2013

Compared to the situation a year ago, pedestrians and motorcyclists decrease (-2% and -1% respectively), and stand at -4% and -13% respectively compared to 2010. Fatalities car users are stable. Fatality among cyclomotors and pedal cyclists rises (+11% and +8% respectively), and stand at -44% and +31% respectively compared with the whole year 2010.

Compared to last year, young adult fatalities are up (+16% i.e. 80 additional young people killed), but down from 2010 (-31%, or 261 fewer young people killed) and from 2013 (-10%, or 66 fewer young people killed).

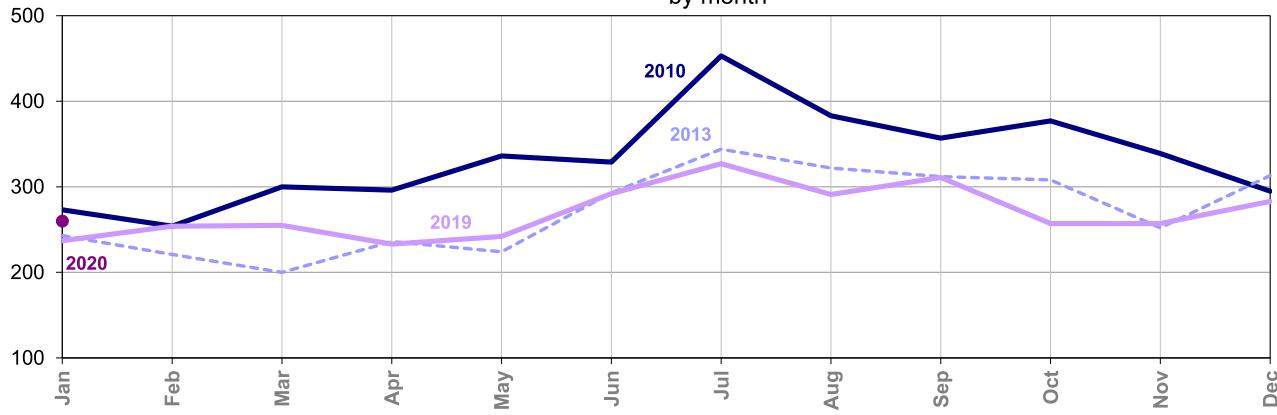

Fatalities among seniors aged 65 or over rise compared to the situation a year ago and by +11% (+82 fatalities) compared to 2010 and +23% (+158 fatalities) compared to 2013.
